

Project Experience *Company Profile*

Thank you for considering Sound Planning for your audio and video systems. Since 1976, we have specialized in the design and installation of state-of-the-art sound systems, acoustics, video systems, and stage lighting systems. We have hundreds of satisfied clients and we hope that you will become one of them.

Our primary clients are churches, schools, and performing arts theaters. Our systems are typically installed in sanctuaries, auditoriums, multi-purpose rooms, gymnasiums, and boardrooms.

Our goal is to provide you with the best design, components, and workmanship possible. We will listen carefully to evaluate your needs, work with you to establish a budget, and design an effective solution to your problems.

We take a lot of pride in designing our systems. We use state-of-the-art technology to assist us in designing and documenting your system. We want your project to be a total success!

Our installation team is experienced. Our technicians are IBEW union journeymen who are highly trained audio and video professionals. Because of their years of training and experience, they take a lot of pride in their workmanship.

Sound Planning is committed to your complete satisfaction and we will make every reasonable attempt to follow through on this commitment. We understand that a new audio or video system is not something you purchase every day. That is why we want you to be completely satisfied with the way your system performs.

We are committed to excellence and it is the standard for everything we do. From meetings with committees, to preliminary proposals, to polishing the design of the system, to schematic drawings, to completed installation, to training the operators, to servicing the system, we strive for excellence.

Many people tell us that we "went the second mile" and did it in a helpful and cheerful way. We know that you will find us very easy to work with, and that Sound Planning will meet and exceed the expectations of everyone involved.
