

Project Experience Auditoriums

Living Word Christian Center (3,500 seats)

Located in Forest Park, Illinois, this venue is primarily used as a worship space. It is also the perfect location for concerts, lectures, theater, and recitals. The audio system includes a Yamaha 56 channel main mixer, a Yamaha 40 channel monitor mixer, digital signal processing, Crown power amplifiers, EAW speakers, and JBL subwoofers.

Todd M. Beamer Event Center (900 seats)

What used to be an old gymnasium on the campus of Wheaton College is now the Todd M. Beamer Event Center. After a complete renovation in 2004, the space is now used for lectures, theater, recitals, worship and high-energy concerts. The audio system includes a Yamaha DM2000 digital console, digital signal processing, Crown K series power amplifiers, and an EAW speaker system. The video system includes dual video screens, dual Sanyo theater grade projectors, and Extron video processing.

Elmhurst College, Frick Student Center

Q. How do you quickly and easily take ten rooms with ten sound systems and use them separately or combine them into over a dozen different combinations of rooms?

A. With sophisticated, state-of-the-art digital processing and a great design team. All of the rooms can be used separately or combined with the click of a mouse. The varied uses include concerts, lectures, overflow seating, and various student activities.

Wheaton Academy Fine Arts Center (750 seats)

This beautiful and intimate auditorium is used for lectures, concerts, recitals, worship, and theater. The audio system includes an Allen & Heath mixer, digital signal processing, QSC power amplifiers, and an EAW speaker system.

Wheaton Christian Center (1,000 seats)

Wheaton Christian Center is primarily used as a worship space and as a venue for lectures, concerts, and theater. The audio system includes a Yamaha 56 channel main console, Crown K series amplifiers, and an EAW speaker system.
